Outdoor Wood Burning Appliances

Recommendations:

- A) Only one (1) Wood Burning Appliance may be used on the property.
- B) They must not be used on wood decks or combustible platforms.
- C) These appliance must have screens in place and closed when burning.
- D) Only dry seasoned firewood shall be used in these units, as it burns with little or no smoke.
- E) There shall be **no** use of treated wood, painted wood, leaves, grass, or other vegetation, plastic, oil, rubber or any food materials.
- F) A 10 feet (3 meter) clearance shall be observed in all directions from other combustible materials.
- G) No flammable liquids are to be used to ignite materials to be burned.
- H) Must not be left unattended and all embers must be extinguished with water when burning is complete.
- I) No burning shall take place when Department of Natural Resources has banned all open fires.
- J) Appliances must be ULC/CSA approved and the manufactures instructions are to be followed.
- K) Advise neighbors before burning.
- L) Use of these appliances is at **your own risk**.
